VOLODYMYR KOLISNICHENKO

FULL-STACK DEVELOPER

I am a Full-stack Developer (main stack: JavaScript, TypeScript, React, Node.js). With a technical education in **engineering**, I bring strong analytical skills essential for tackling complex IT challenges. With an **Upper-Intermediate** level of English, I've completed 8 projects with positive feedback from mentors, and I am now leveraging my experience as a Full-stack Developer. Passionate about AI, I seek a growth-oriented, collaborative team. Key achievements include implementing email services, creating 30+ React components, writing 20+ tests, and integrating REST APIs for seamless data-driven experiences.

EXPIERENCE

Full-stack Developer, [DOP Invest](#), 2024 - present

- **Developed and maintained** the Invest Platform using Nest.js, React, TypeORM, Valtio, and TypeScript.
- **Implemented secure API endpoints** and robust email services with Nodemailer and Gmail SMTP—supporting multiple environments and dynamic templates (e.g., invites, OTPs).
- **Created key user-focused features**, including a comprehensive dashboard for real-time data visualization and an intuitive sign-up page.
- Collaborated with a cross-functional team of 10+ members to deliver scalable, high-quality solutions.

Full-stack Developer, 2023 - 2024

- Delivered **15 responsive features and 30+ React components** with TypeScript, enhancing UI/UX and functionality.
- **Wrote 20+ unit and e2e tests** to verify the functionality of user interfaces.
- Integrated 5+ REST APIs to deliver seamless, data-driven experiences in web applications.

Front-end Developer, [Fiverr](#), 2023 | remote

- Improved [DPASTE](#)'s UI by fixing formatting issues and repairing a broken chart layout.
- Tested and debugged [GALLERY](#)'s item cards to ensure functionality and visual consistency.

PREVIOUS EXPERIENCE

Manager at Fresh Food Delivery Company, Poland, 2018 –2024

- Organized and managed delivery processes, supervised operations of a team of up to 12 members, and effectively addressed business challenges.
- Contributed to implementing an application for tracking vehicle movements, which improved planning and **increased company profits by 15%**.
- This position taught me how to establish communication with people and easily find common ground.

EXAMPLES OF COMPLETED WORKS ON GITHUB

RENTAL SERVICE - Responsive landing page for a bike store or rental service. ([demo](#))([GitHub](#))

- HTML, Figma design, Sass (SCSS), JavaScript

ART GALLERY - A website showcasing a museum's collection and exhibits. ([demo](#))([GitHub](#))

- HTML, Figma design, Sass (SCSS), JavaScript

GAME 2048 - This project is a web-based implementation of the popular game "2048" ([demo](#))([GitHub](#))

- HTML, CSS (SCSS), JavaScript
